Privacy

PNTMC maintains a database of members' names, addresses, phone numbers and emergency contact details. Names and phone numbers of new members are introduced in a current newsletter at time of joining. Leaders' names and phone numbers are circulated within and outside the club via the newsletter, events card and the web. A current list of members, addresses and phone numbers is circulated once a year to all members. Lists of trip participants are kept in case of search & rescue or emergency contact reasons for the duration of the trip. Members' names and contact details are made available to the authorities in the event of a search enquiry.

New Members Details: Names of new members are introduced in a current newsletter at the time of joining the club. Details of new members are emailed to all current members to keep the members list up to date throughout the year.

Tick here if you **do not** want your name, phone number, address, and email being shared in this way.
