Trip Grading

Trip grades depend on many factors, especially weather and terrain. A reasonably proficient tramp should expect to do the trips in the following times:

Easy (E):	3-4 hrs
Medium (M):	5-6 hrs
Fit (F):	about 8 hrs
Fitness Essential (FE):	over 8 hrs
Other grades:	
Technical skills (T)	
Instructional (I)	

Trip participants

Contact the leader at least 3 days in advance. Trips leave from Milverton Park. A charge for transport will be collected on the day.

Gear for trips

Minimum gear for day trips is appropriate footwear, pack, lunch and snacks, waterproof jacket, overtrousers, gloves, warm hat, torch, toilet paper, matches or a lighter, sunblock, first aid kit, and a survival bag or space blanket. Each person needs to be equipped to survive overnight.

Personal Locator Beacons – Free for trips

The club has purchased two PLBs for members' use. If you want to take one of these on a trip, contact Martin or Anne Lawrence on 357-1695. Note that this applies to any trip you are going on - it doesn't need to be a club trip.

Trip leaders

Complete the trip intentions form and leave with one of Overdue Trip Contacts or drop into 44 Dahlia St or email to pntmctrips@gmail.com with the date and trip name in the subject line. If you are unable to run your trip as scheduled, advise a trip coordinator as soon as possible so that alternatives can be arranged.

Overdue Trips

If a club trip is late returning, please do not worry unduly as there is probably a good reason for the delay. If you are in any doubt, please phone one of the Overdue Trip Contacts:

(Also makes a nice gift to friends and family who might otherwise wonder why you enjoy tramping so much!)

PNTMC Travel Club - Nepal

Would you like to join Jo and Lawrence O'Halloran on two treks with Ann Young "Trekking Adventures" later this year?

- 14 - 29 Sept Annapurna Sanctuary Trek
- 29 - 30 Sept in Kathmandu
- 1- 28 Oct Kanchenjunga Trek

After the treks you would be free to depart Nepal anytime after 28 October or stay on as long as you like.

Please confirm your interest asap as Ann needs to firm up these dates with her guides so they don't book themselves up with other treks. She also needs to book the flights etc. The

Kanchenjunga trek has a lot to organize with exact dates being really important.

Interested people could talk to Ann Young directly: ann@trekkingadventures.co.nz

Newsletter Download Problem

By Webmaster Peter Wiles

Downloading the Latest Newsletter Problem?

Sometime ago I heard that someone was having difficulty downloading the current newsletter (PDF) file from the website – (Woody, I believe?). At the time I tested the program on the three common browsers that run on a Windows PC – Internet Explorer (now replaced by MS Edge), Google's Chrome and Mozilla's Firefox. The latest newsletter ran fine on all these and I dismissed the problem.

Recently, in a discussion with Warren, he mentioned it again - that more than one person was having problems. Currently, in addition to having a Windows PC, my new secret weapon is an iPad which being an Apple device runs their Safari browser. And guess what, yes, sure enough only the first page of the newsletter is downloaded! Grrrrrrrrrrrr.

That is the bad news bit, and to make matters more complex but provide some good news, if you get a list of past newsletters – from the link on the Newsletters page you will find (I hope) that regardless of browser i.e. including Safari, you can download the complete newsletter! Why the difference in output depending on whether it's the latest, or an older newsletter? This is because the way the two types of links are constructed (and the things going on behind the scenes) are somewhat different i.e. a problem of my making. Oh dear.

However to absolve myself of some of the blame, a Google search turns up several blogs that indicate there is a known bug in iOS (the Apple operating system used across their iDevices) that causes only the first page of PDF files to be displayed. Some suggested simple possible fixes, have not worked.

Some FAQs come to mind:

If I download the Chrome browser to my iPhone or iPad, will that avoid the problem? No, the bug still occurs (on my iPad). Similarly, if you download the Adobe Acrobat Reader (and Chrome), that does not help either.

Who Has Done What 2016-17

Compiled by Terry Crippen.

Here is the "Who Has Done What" list for March 2016 to February 2017 including a few omissions from last year's list in December 2015 and January 2016.

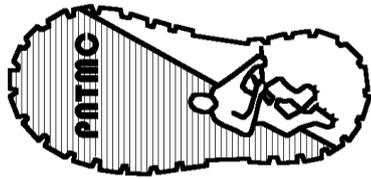

It is an attempt to keep a record of what club members get up to (the cumulative list now goes back to April 2000); and to enthuse people to do different trips.

It is also a list of who to contact for info about different places. It follows the same format as previous years: i.e. it excludes the usual shorter Tararua, Ruahine, TNP, ENP etc trips; and concentrates on further afield trips, overseas, and multi-day trips.

The listings are both private trips done by club members and longer club trips. Note that only members and past members names are listed plus some others, so a single name doesn't necessary imply a solo trip. As usual it is biased towards what club members have told me they have done. So no doubt they are many brilliant trips omitted.

NP = National Park, FP = Forest Park, CP/CA = Conservation Park/Area.
